

AMR MAHMOUD FARGHLY

Front-End Developer (React.js)

Cairo, Egypt | 01069513679 | mamr32278@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Front-End Developer with hands-on experience turning Figma designs into pixel-perfect, responsive HTML/CSS and building production React interfaces with clean, maintainable JavaScript (ES6+). Comfortable with core JS fundamentals — closures, the event loop, async patterns, and the DOM — not just framework APIs. Works AI-first with tools like Claude, Cursor, and Copilot to move faster while staying fully accountable for every line shipped. Experienced with RESTful API integration, Git/GitHub workflows, and cross-browser, accessible, mobile-first development. Clear written English and comfortable in fully distributed, async-first remote teams.

TECHNICAL SKILLS

Frontend: HTML5, CSS3 (Flexbox, Grid, pixel-perfect responsive layouts), JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap, jQuery

JS Fundamentals: Closures, async/await & the event loop, DOM manipulation, prototypes, debugging without guessing

AI-Assisted Development: Claude, Cursor, GitHub Copilot — used to ship faster while reviewing and owning every line of code

APIs & Backend: RESTful APIs, JSON, Fetch API, Axios, asynchronous operations, Node.js & Express basics

Workflow & Tools: Git, GitHub, GitLab, VS Code, NPM, Figma-to-code, browser DevTools, cross-browser compatibility, WCAG accessibility basics

Testing & Quality: React Testing Library, Jest, code reviews, performance optimization, SEO best practices

EXPERIENCE

Front-End Developer (Freelance Projects) | *Mostaql.com*

Jan 2025 – Present

- Delivered pixel-perfect, responsive web and landing pages from design files using HTML, CSS, JavaScript, React.js, and Next.js.
- Built reusable, component-based UI and improved page structure for long-term maintainability and scalability.
- Applied cross-browser compatibility and responsive-design best practices to ensure a consistent experience across devices.
- Used AI coding tools to speed up implementation while manually reviewing and validating all shipped code.

Junior Front-End Developer (React.js) | *Route Academy*

Mar 2025 – Jul 2025

- Built responsive, pixel-accurate layouts with HTML5, CSS3, Bootstrap, React.js, and Next.js across multiple breakpoints.
- Managed component state with React Hooks (useState, useEffect) and built reusable UI components.
- Integrated RESTful APIs and handled asynchronous JSON data end-to-end in practical projects.
- Applied Flexbox and CSS Grid to solve real layout problems, including hover, active, and empty/error states.
- Collaborated using Git/GitHub and participated in peer code reviews to raise code quality.

Front-End Intern | *ITIDA*

Oct 2024 – Dec 2024

- Built 10+ responsive UI components and 4 full-page layouts using semantic HTML and CSS best practices.
- Developed interactive features with JavaScript and DOM manipulation across 5 mini-projects.
- Took part in 8+ code reviews and weekly peer sessions, improving debugging efficiency by 30%.
- Delivered a final project with 100% mobile responsiveness and a clean-code score above 90%.

SELECTED PROJECTS

E-Commerce Web App | *Next.js, TypeScript*

- Built a responsive e-commerce app with product listing, product detail, cart, and checkout flow.
- Used dynamic routing and modern component architecture for a scalable, organized codebase.
- Integrated API-based product data with a focus on performance, usability, and SEO-friendly structure.

Game Over — Game Catalog Web App | *React.js, API Integration*

- Built a game-browser app rendering 200+ games via asynchronous API calls, with loading states and responsive card layouts.
- Achieved 0 API errors in testing through solid error handling around fetch().

Weather App | *HTML, CSS, JavaScript, Weather API*

- Built a live weather-search app with robust input validation and error handling — 100% success rate on valid queries in testing.
- Designed mobile- and desktop-responsive layouts with media queries, tested across 5+ device sizes.

Start Framework | *HTML, CSS, Bootstrap, JavaScript*

- Created a multi-section, pixel-conscious front-end template with sticky nav and animated sections.
- Tested accessibility and responsiveness from 320px to 1440px viewports using Lighthouse.

EDUCATION

Bachelor's Degree in Computer and Information Technology (IT)

Egyptian E-Learning University, Assiut Branch — 2024 — GPA 3.04

Professional Training Program

National Telecommunication Institute (NTI), Egypt — Graduate

CERTIFICATIONS

- Front-End Web Development Diploma — Route Academy (HTML, CSS, JavaScript, React.js)
- Android Mobile Development with Java — ITI

LANGUAGES

Arabic: Native | English: Fluent, spoken and written — comfortable with async, written-first remote communication
