

AMR MAHMOUD FARGHLY

Odoo Developer | ERP Implementation | Front-End (React.js / Next.js)

Cairo / Assiut, Egypt • 01069513679 • mamr32278@gmail.com • linkedin.com/in/amr-m-farghly-885053279 • github.com/a-mfarghly

PROFESSIONAL SUMMARY

IT graduate specializing in Odoo development and ERP implementation, with hands-on training in Python, Odoo ORM, XML views, QWeb reporting, PostgreSQL, and business workflow automation across Sales, Purchase, Inventory, CRM, and Accounting. Combines this with proven front-end development experience in React.js, Next.js, and JavaScript (ES6+), delivering component-based UIs, RESTful API integrations, and responsive, cross-browser interfaces. Brings a practical, detail-oriented approach to backend customization and frontend/UI work within Odoo, strong debugging discipline, and a track record of fast, self-directed learning across two structured technical training programs.

CORE TECHNICAL SKILLS

Programming Languages	Python, JavaScript (ES6+), XML, HTML5, CSS3, SQL
Odoo Technologies	Odoo ORM, Module Manifests & Models, XML Views, QWeb Templates & Reports, Security & Access Rights (Record Rules), Web Controllers, Automated/Scheduled Actions, XML-RPC / JSON-RPC
Odoo Functional Areas	Sales, Purchase, Inventory, CRM, Accounting workflow customization
Frontend	React.js, Next.js, Bootstrap, Responsive & Mobile-First Design, Flexbox, CSS Grid, Cross-Browser Compatibility
Backend & Integration	Python OOP, RESTful API Integration, JSON/XML data handling, server-side scripting & automation
Databases	PostgreSQL, SQL fundamentals
Version Control & Tools	Git, GitHub, VS Code, Postman
Operating Systems	Linux fundamentals (training exposure), Windows
Soft Skills	Requirements analysis, problem-solving, debugging, technical documentation, team collaboration

ODOO / ERP DEVELOPMENT — TRAINING & PRACTICAL WORK

ERP Specialist (Odoo) Track | Digital Egypt Youth (DEY) / NTI — HireReady Program

2026

- Completed an intensive, government-backed Odoo training track covering ERP concepts, environment setup, Git workflow, ORM, XML views, Python development, inheritance, security/access rights, and performance considerations.
- Built and customized Odoo modules using Python and XML, including manifests, models, menus, actions, and access-control files.
- Developed course/training-management customizations: teacher and course search, experience-based filters, grouping, and view updates.
- Created and adjusted QWeb report templates and report actions to generate printable business documents.
- Practiced module debugging, addon upgrades, and code-structure improvements for long-term maintainability.
- Studied web controllers, website development, automation/scheduled actions, wizards, and Odoo deployment/module-lifecycle basics.

FRONT-END DEVELOPMENT EXPERIENCE

Junior Front-End Developer (React.js) | Route Academy — Cairo, Egypt

Mar 2025 – Jul 2025

- Built responsive layouts using HTML5, CSS3, Bootstrap 5, React.js, and Next.js, applying reusable component design applicable to Odoo view/template customization.
- Managed application state with React Hooks (useState, useEffect) and integrated RESTful APIs, handling asynchronous JSON data.
- Applied Flexbox, CSS Grid, and SSR concepts to deliver fully responsive, cross-browser-compatible interfaces.

Freelance Front-End Developer | Mostaqi.com — Remote

Jan 2025 – Present

- Designed and delivered responsive client web pages using React.js and Next.js, optimizing performance and load times.
- Implemented reusable UI components and applied SEO best practices while ensuring mobile and cross-browser compatibility.

Front-End Intern | ITIDA — Cairo, Egypt

Oct 2024 – Dec 2024

- Developed 10+ reusable UI components and 4 full-page layouts using React.js and JavaScript DOM manipulation.
- Participated in 8+ structured code reviews, improving team debugging efficiency by 30%.
- Delivered final project output with 100% mobile responsiveness and a clean-code rating above 90% on instructor rubrics.

SELECTED PROJECTS

- **E-Commerce Web App — Next.js & TypeScript:** Built a full Next.js/TypeScript storefront with RESTful API integration for products, cart, and checkout; used SSR/SSG for SEO and mobile performance — directly transferable to Odoo eCommerce/website module customization.
- **Game Over — Game Catalog Web App:** React.js app rendering 200+ items via asynchronous API calls with loading states and error handling, achieving zero API errors in testing.
- **Weather App — JavaScript & Weather API:** Live-data app with input validation and error handling; deployed to GitHub Pages, reaching 300+ unique visits in two weeks.

EDUCATION

Bachelor's Degree — Computer and Information Technology | Egyptian E-Learning University, Assiut Branch *Graduated 2024*

- GPA: 3.04 / 4.0

CERTIFICATIONS & TRAINING

- ERP Specialist (Odoo) — Digital Egypt Youth / NTI HireReady Program (2026)
- Front-End Web Development Diploma — Route Academy
- Android Mobile Development with Java — ITI

LANGUAGES

- Arabic — Native
- English — Good working proficiency (fluent written/spoken for technical contexts)
