

Summary

Front-end developer focused on React.js and Next.js. I build accessible, responsive interfaces and treat authentication and secure defaults as part of the product. I also train cybersecurity and come from an IT and networking background.

Selected public work

Project	What it is	Link
Admin dashboard	Next.js internship task. Mocked sign-in, a 120-row table, Recharts, and PDF/Excel export.	GitHub
Fresh Cart	Next.js storefront for products, cart, wishlist, and account routes. Data from the RouteMisr API.	Live demo
Commerce API	Express and MongoDB API with JWT auth, catalog, cart, wishlist, and orders.	GitHub
Pharmacy module	Odoo 18 addon that classifies a product template as medicine or not medicine.	GitHub

Skills used in these repositories

React, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux Toolkit, React Hook Form, Zod, Recharts, Node.js, Express, MongoDB, JWT, Python, Odoo 18, Docker, Git.

Public record

GitHub profile a-mfarghly, opened January 2024, with 31 public repositories. This PDF lists only work I could point to in public source code. It does not list employers, a university degree, or certifications.
